### Who we are:

Reeves Envico is a group of specialist infrastructure contractors with over 30 years' experience throughout Australia and the Asia Pacific region. Delivering projects in civil works infrastructure and construction management in sectors such as water and sewerage, environment, public works, commercial, heritage, and residential. Through our two companies - CCB Envico and Reeves International - we have successfully completed over 150 major projects in Australia and throughout the Asia Pacific, predominantly working with Water Authorities, Federal, State and Local Government, Pacific Region Government Departments.

### We have an opportunity:

- To work in some amazing locations in the Pacific Region
- For an experienced construction professional to go global
- In an expanding construction company with a great pipeline and team culture.
- For exposure to a diverse range of projects.

### Why work for us?

- Help us build successful community infrastructure projects in Australia and developing Countries, that make a difference to people's lives.
- Our employees are valued, appreciated and recognised.
- Perks include a competitive salary, that additionally includes travel costs with return trips every 8 weeks, all accommodation and utility costs covered, and accompanying partner and children welcome.
- Benefits include taking your career global and working with wonderful Pacific people in beautiful locations.

### What you will have:

- Relevant Qualification
- Excellent skills in communicating with people at all levels, with emphasis on oral.
- Well organised, with the ability to prioritise workload accordingly.
- Hands-on team player - support and back up other staff members and perform a range of duties from routine to high level.
- Self-motivated and with initiative.
